Project Gallery

The following pages display Cast Stone Commercial Services' projects through the years.

As the experts in architectural stone, often we are faced with challenges brought on by the design of a project. We face these challenges head on and are often required to create new and innovative procedures in order to provide our customers with the quality they expect and deserve.

We take great pride in presenting our Commercial Project Gallery and hope that you will find that our strengths are evident in every piece of stone that we produce.

Send Us Your Plans!

• Xavier University New Orleans, Louisiana

Cast stone will make a dramatic difference in the look of a commercial project. The Xavier project used cast stone banding to highlight the structural levels of the multi-story building.

Architectural Impressions

Meeting commercial project time constraints is of primary importance.
Cast Stone Commercial Services produces truckloads of stone each day to meet scheduling needs.

Xavier University

New Orleans, Louisiana

The custom door and arch surrounds marry brick and cast stone together to create unique architectural focal points that accentuate the details of the project.

your project.**

• Stillwater National Bank

Tulsa, Oklahoma

*State of the
Art Solutions*

Commercial projects require expert solutions to the puzzles that arise.
Cast Stone Commercial Services' craftsmen are the experts in the cast stone industry.

• **Stillwater National Bank Tulsa, Oklahoma**

Using radiused features in architecture can be difficult. Cast stone is a beautiful and cost effective solution to difficult radius and compound radius installations. The final effect is stunning.

**Custom
Stonework
produced
every day.**

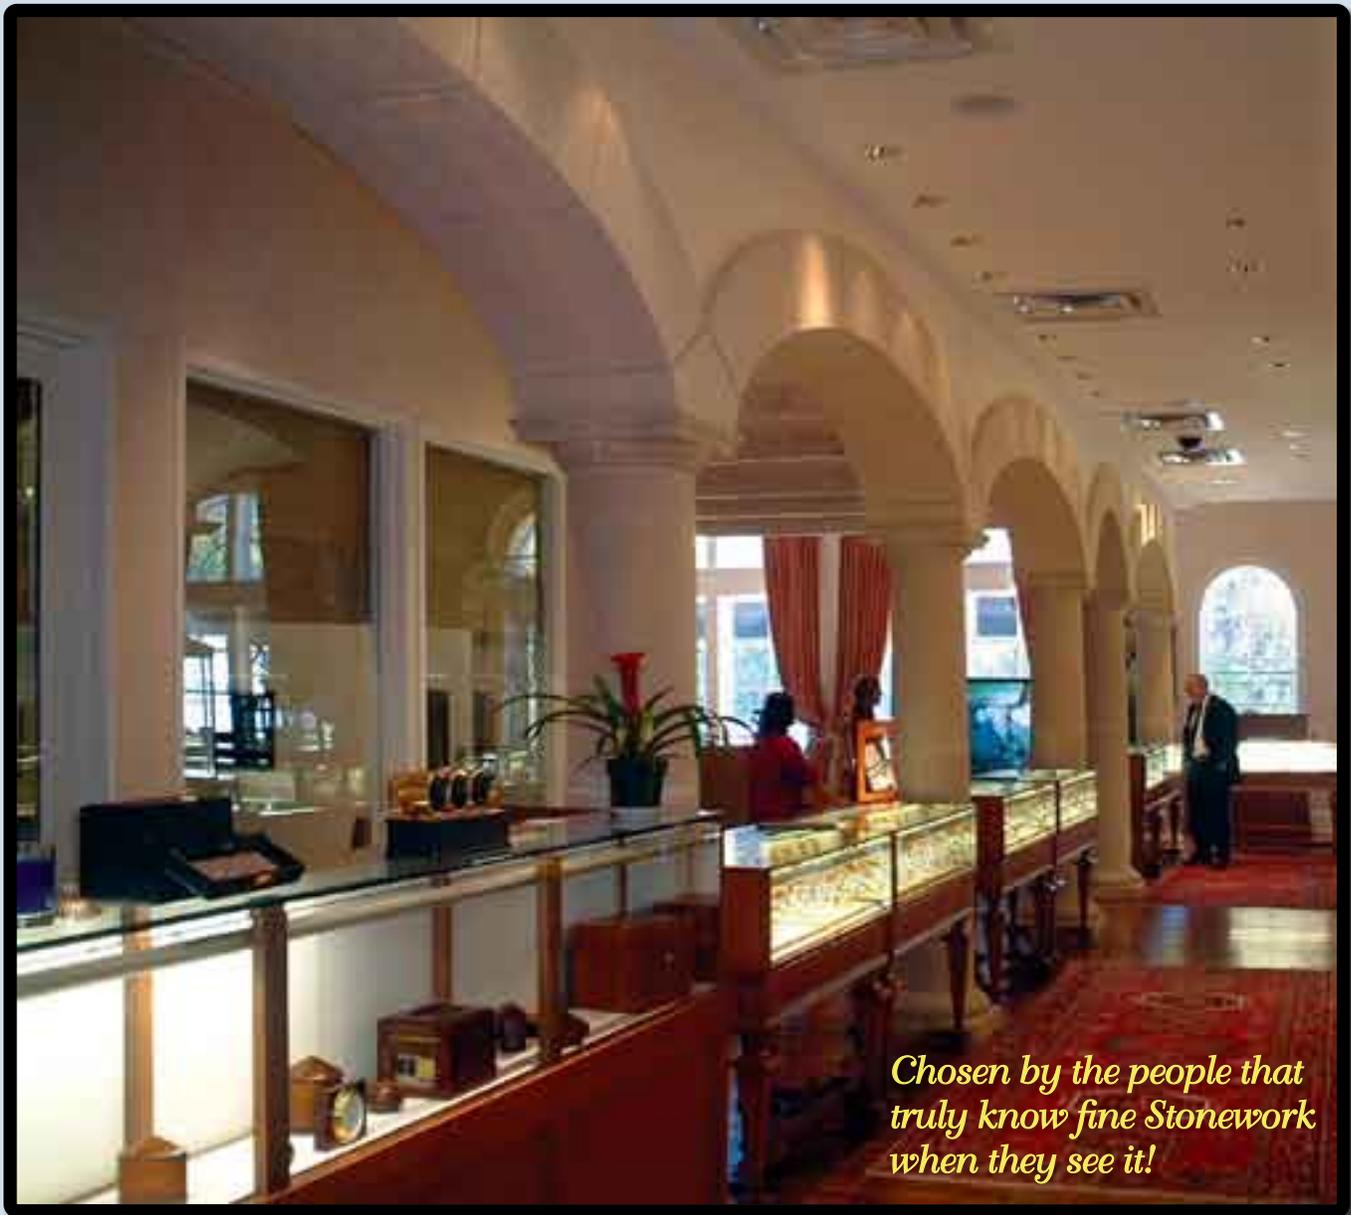

DeBoule Jewelry

Dallas, Texas

Architectural cast stone is not just for exterior use. Cast stone columns accent the interior arches over the sales counter, creating a warm inviting atmosphere and the elegance of the showcase surrounds is beyond compare.

Beauty Beyond Compare

Chosen by the people that truly know fine Stonework when they see it!

Interior cast stone applications are often overlooked when designing commercial projects. Cast Stone Commercial Services' products are just as beautiful inside as they are outside.

A statement of ability.
Meeting the aesthetic, as well as the scheduling and budgetary needs of the client, **Cast Stone Commercial Services** proved that quality need not be sacrificed in order to get the job done right and on time.

• **DeBoule Jewelry**
Dallas, Texas

The choice
of people
that know
their stone.

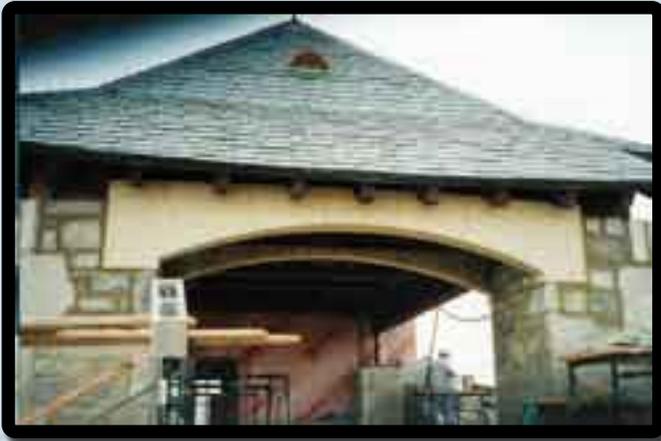

• Gaillardia Country Club

Oklahoma City, Oklahoma

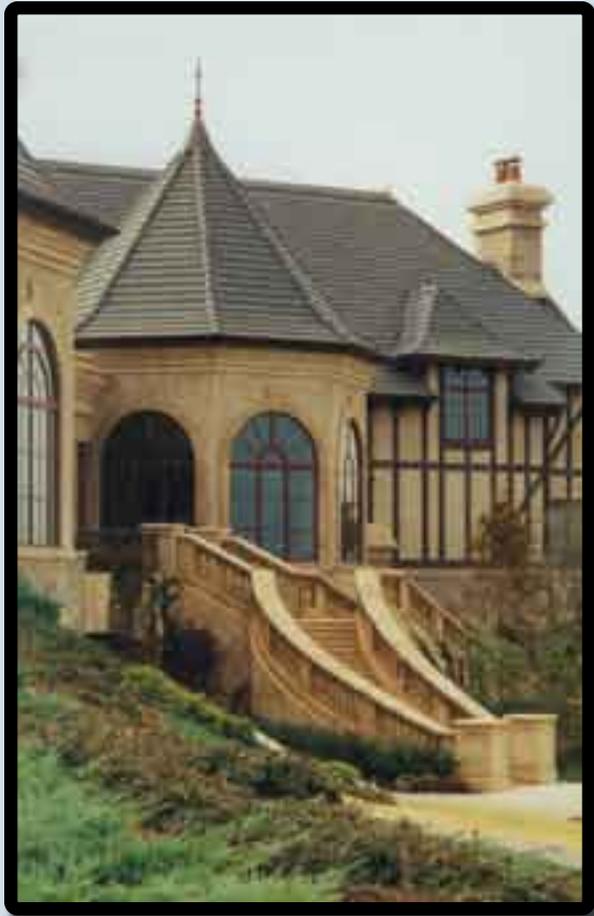

A symbol of the true romance of architectural cast stone.

With every detail the marriage of cast stone and natural cut stone emphasizes the grandeur of this project.

Using two different companies for your Cast Stone and Cut Stone needs affects scheduling and budget. **Cast Stone Commercial Services** is not just Cast Stone anymore. Call today for **Natural Cut Stone**.

A Statement of Quality

• Gaillardia Country Club

Oklahoma City, Oklahoma

**Quality
Meets
Budget**

Meeting budgetary requirements, without effecting the style and beauty of the project is an important consideration in your selection of a commercial cast stone company.

• The Terraces

Dallas, Texas

Architectural cast stone is the perfect compliment to any type of exterior cladding. The Terraces creates a classic look using cast stone to accent the stucco facades and landscape walls of natural stone. **Cast Stone Commercial Services** carries many products, such as wall veneer, in inventory for fast delivery.

Classic Design

Immediate needs can lead to frustration when waiting for information or drawings by mail. **Cast Stone Commercial Services** offers information and thousands of downloadable drawings online.

• The Terraces

Dallas, Texas

With unparalleled services, like design consultation and local delivery, **Cast Stone Commercial Services** is the first and only choice for your quality stone needs.

**Design
consultation
available.**

• Veteran's Hospital

Tampa, Florida

Facing challenges is a part of stone production. The custom color and texture of the oversized wall veneer panels were produced to meet the needs of the Veteran's Hospital project.

Custom stonework can require new techniques in tooling in order to produce the desired parts. **Cast Stone Commercial Services** is ready to meet your challenges with experience and skill.

● **Regent University**
Virginia Beach, Virginia

Regent University required new state-of-the-art procedures to be implemented in order to produce the parts required for these astounding columns. Pictures do not do justice to the sheer size of the parts.

**Conquering
your stone
challenges**

• Jacob Riis Park Bath House Gateway National Park, New York

The Artistic Touch

While working with detailed artwork, it was an important factor to organize the cast stone parts efficiently for the Riis Park project.

Cast Stone Commercial Services assisted in the site inventory control by supplying a site location map which placed each pallet near its required installation point.

It is this type of behind the scenes organization that keeps Cast Stone Commercial Services ahead of the rest.

Historical Restoration projects often take extra care in the reproduction of the art from our past. **Cast Stone Commercial Services** is proud to have been selected for the Riis Park Restoration project.

• **St. James
Armenian Church**
White Plains, New York

**Cast your

Value Added Services

One Step Ahead

Keeping ahead of the competition is a requirement and simply producing quality cast stone products is often not enough.

Cast Stone Commercial Services realizes that often the Value Added Services are what make the difference to our commercial clients.

It has been said that our strongest points are our specification abilities. Just a few of these abilities include:

- **Itemized Estimates**
- **Quantity Cost Breaks**
- **Customer Plan Pages**
- **Assembly Drawings**
- **Installer Conscious Designs**
- **Detailed Shipping Packages**

Client Support

Our clients believe in our dedication to keeping them informed. As a client of Cast Stone Commercial Services, whether you contact us via the internet or phone, you will be assigned to a real person as your primary contact.

Your contact will answer questions during all phases of your cast stone or cut stone production and update you on your project's progress each week.

Design Consulting

Send in your plans and let one of our professional design consultants analyze your plans and provide you with design options that optimize cost and speed of delivery while maintaining distinctive designs.

Job Management

Working with you step by step, a Job Manager will assist you through the submittal process. As a client, you will receive submittal drawings for use in determining:

- **Quantities**
- **Sizes**
- **Color**

Upon completion of the Submittal Phase, your project will then be broken down into parts and released to our skilled artisans and craftsmen for production.

Can You Really have the Best of Both Worlds?

Natural Cut Stone is the Perfect Compliment to Cast Stone!

Don't Get One Without the Other.

Online Service

Visit our website at www.cast-stonecommercialservices.com for the latest tools for designing and specifying our products.

We encourage you to become a website member which provides you with a customer service representative to help you with your project.

Site Management

Commercial projects are rarely small. Once production has been completed and your cast or cut stone

has been shipped to your project site, knowing where individual parts are

among hundreds, if not thousands, of other parts becomes critical.

Understanding the importance, we again look to state-of-the-art technology to assist in the mapping of your storage site.

You will know where your stone is located on your site by using such tools as:

- Assembly Drawings
- Packing Slips
- Shipping Tags
- Unit Tags
- Site Maps

Old Business First

Time is often the greatest value of a commercial stone production. For this reason, Cast Stone Commercial Services believes that "Old Business Comes First".

Priority status is placed on replacement productions where stone has been damaged in shipment, is missing from the shipment, or was made incorrectly.

The commercial client can trust replacement parts will take precedence in production and shipping. You will not wait weeks for you replacement stone.

On the Grow

Cast Stone Commercial Services continues to grow even though other cast stone manufacturers are going

out of business.

We know that stability is a key factor in associating with any company and our company's growth over the years is a reflection of our stability and our dedication to fulfilling the needs of our commercial clients.

Location is Everything

Located just southeast of downtown Dallas and near two intersecting highways, Cast Stone Commercial Services stands ready to conveniently serve its local and national customers.

Putting It Together

Product Groups

Quality is Key

Cast Stone Commercial Services regards quality as a top priority in the production of cast stone and natural cut stone products. Maintaining the quality of our products, while meeting the needs of our clients, adds distinct value in the cost of the stone itself.

Employing the talents of artisans and craftsmen alike, we strive to make our cast stone and cut stone products to meet our client's highest expectations.

Why Consider Cut Stone?

Natural cut stone was forged by heat and pressure over millions of years. Due to this natural process, cut stone is perfect for interior and exterior applications. Properties include:

- **Unmistakable Beauty**
- **Inherent Qualities**
- **Natural Coloration**

Product Groups

Cast Stone Commercial Services has organized its stone products into product groups in order to simplify the estimating and ordering process.

The cost of upgrading the look of your project need not be a deterrent. Working to benefit our clients, we offer Value Pricing on large orders of our stone products. Some of the products available include:

- **Veneer**
- **Bandings**
- **Balustrade**
- **Columns**
- **Wall & Pier Caps**
- **Pool Coping**

Why Consider Cast Stone?

The ancient art of cast stone has been around for 2000 years. Though the process has changed little over time, Cast Stone Commercial Services has improved upon the procedures involved in stone production.

Cast stone has distinct qualities that make its use a benefit to your commercial project. Some of these qualities include:

- **Art Replication Savings**
- **Durability**
- **Complex Design Savings**
