

Paver Checklist

Use Generic or Unit Sheets for Pavers

- Select the Profile or Unit ID for each Paver
- Verify the Unit Size (X, Y and Z Dimensions)
- Verify artwork or artist concepts with Photo or Visual aid of Custom Pavers
- Calculate Square Footage of area to cover with Paving stones
- Calculate quantity (Base on covering the Square Feet of Area)
- Select stone color

Secondary Considerations

The following list of questions will help to identify situations that are not typical, but possibly critical.

- Have you thought about some of the cutting options or install design options that will enhance your look?
- Have you looked into our inventory of Smooth and Coral textured Wall Veneers these could be used as Pavers? (Saving you time and money)
