Surrounds

We have an extensive stock of beautiful window and door surrounds

Meet any window schedule with our inventory line of standard sizes

		Width		
		3'	5'	6'
Height	3'	●	●	●
	4'	●		●
	6'	●		●
	7'	●	●	
	8'		●	
	10'		●	

These surround units are measured from the top of the sides to the bottom. The roundtop surrounds rise half the width of the surround above this, and eyebrows somewhat less than half. Call us for the measurements, or find them at www.StoneLegends.com

Surround Shapes Available

Eyebrow Top

Jamison2
Flatface Keystone
Marcus Slope1 Sill

Chamfer Keystone

All of these shapes, sizes, and profile families are available as complete units or can be mixed and matched when purchased as individual pieces.

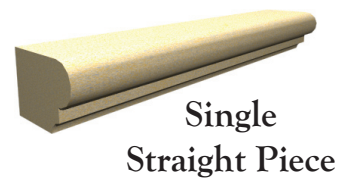

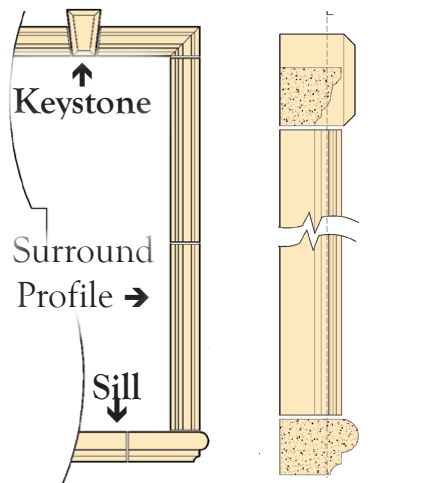

Surround Profiles

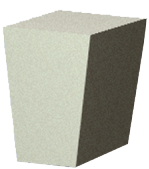

Preselected Profile Families

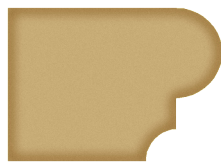

Sample Surround

Optional substitute profiles

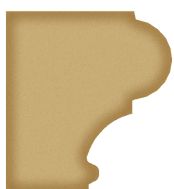

Flatface Keystone

Marcus Slope 1 Window Sill

There are many options and special techniques, allowing you to create a unique style to your home. See further options in the "parts" section of this catalog, and also our "How to guide", or go to our website for our line of custom products at www.StoneLegends.com

Marcus3 (Brick)

Marcus3A (Stucco)

These Profiles above are designed for use with brick. We also have similar profiles for Stucco. They are identical to brick profiles, except thinner, see the examples to the left.

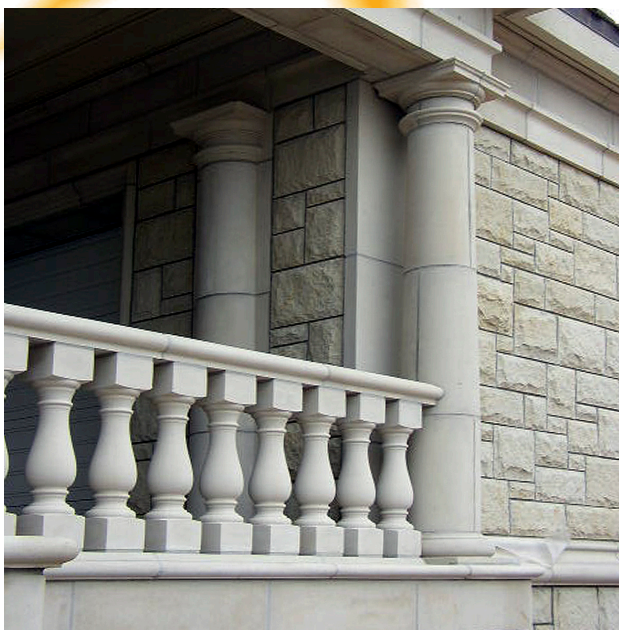

Balustrades

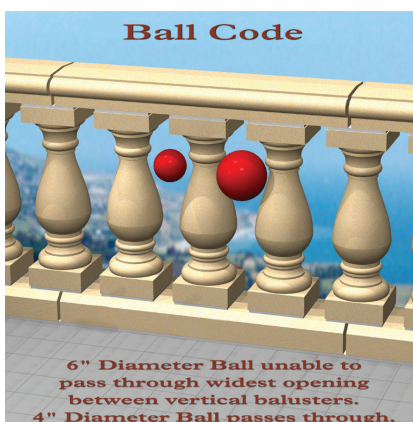

**CREATE A STATEMENT
IN CAST STONE!**

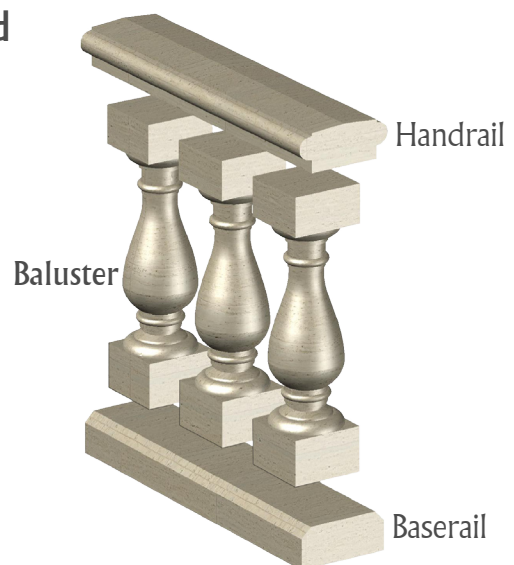

We offer the Otterwood balustrade design for our inventory line because of its extreme popularity.

Local Building codes may require less space between balusters, requiring additional balusters to comply with regulations.

**Standard
Height**

Balusters for stairs have a larger lug at either end, as shown to Left. This allows the baluster to be custom cut on-site to fit the exact slope of your stair. The taller balusters can be ordered.

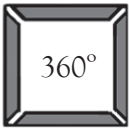

Newel Piers

Make sure you compliment your balustrades with our decorative inventory line of Newel Piers.

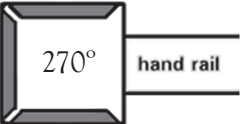

Newel Piers can be ordered in 4 different configurations

360°

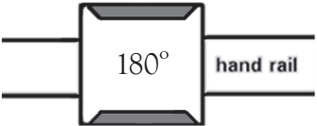

No Connection
Stand Alone Pier

270°

hand rail

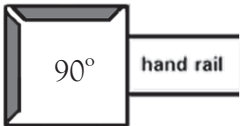

One Connection
End Pier

180°

For the standard style the handrail connects to the newel pier at the upper shaft.

For the Pass through style, the rail meets the newel pier at the cap. This requires the taller Balustrade set as well.
