Dear Richard:

I just wanted to say again what a splendid job you did assembling all that material for the Cast Stone Article that we published in the current issue. I've gotten a number of compliments about it (some from cast stone people who were jealous that they hadn't written it!)

My only frustration was that we didn't have enough room to publish the ENTIRE manuscript you sent us. Once you got rolling, you put together a fantastic amount of information on Cast Stone. There is the basis of a small book there; is that anything the Cast Stone Institute would be interested in?

In any event, I know that a lot of work went into that manuscript and I just wanted to say thank you for doing such a great job.

With all best wishes,

Clem Labine
